Downgrade To NEUTRAL Awaiting The New Business Plan

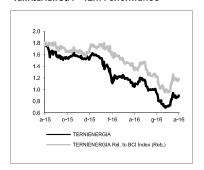

- 1H16 results impacted by the deconsolidation of Free Energia. 1H16 turnover came to Eu50.6mn (9.7% below our estimate), representing a 67% YoY decline, mainly due to the deconsolidation of Free Energia, which negatively affected the Energy Management business line (-98.1% YoY). The Technical Services business line posted positive growth (+132.2%), mainly due to the boost to the EPC business provided by the South African "Giant" contract. EBITDA came to Eu9.5mn, representing a decrease of 11.4% YoY, but with a significant increase in the margin (18.8% vs. 7.1%) due to the greater weight of business lines with higher added value. EBIT stood at Eu5.9mn, down 25% YoY. This figure was also impacted by a negative one-off of around Eu1.1mn due to the devaluation of the credit position held in Veneto Banca. The bottom line was dragged down by a higher than expected tax burden, closing at Eu1.1mn (-24.7% vs. 1H15). Net debt went down from Eu87mn at the end of 2015 to Eu79.3mn at June 2016.
- Business restructuring ongoing, new business plan out in October. The company is implementing a strategic repositioning in the renewable energy value chain through acquisitions and a group restructuring. Softeco Sismat Srl and Selesoft Consulting srl have been acquired for a total of around Eu5.3mn (around 2.4x 2015 EBITDA). These deals will enable the company to strengthen its activities in the services, industrial production, smart technology, energy efficiency and renewable energy management fields, in particular boosting Ternienergia's technical expertise. The company has also signed an important agreement with Roma Gas & Power that will deliver substantial improvements in the Energy Saving business. Moreover, in line with what was announced in the updated business plan released after the deconsolidation of Free Energia, the company is already in advanced talks for the acquisition of a target company operating in the Energy Management sector. We expect the company to disclose a new business plan in October.
- New lower estimates. Our new 2016 and 2017 estimates now incorporate the acquisitions of Softeco Sismat and Selesoft Consulting (Technical Services) and the agreement reached with Roma Gas (Energy Savings business line). We have also included the purchase of an Energy Management company by year end, as according to TerniEnergia's management a deal should be finalised soon. As far as EPC revenues are concerned, we have taken into account the contracts won in Zambia for a 36MW photovoltaic plant and in South Africa for an 86MW photovoltaic plant; we have not assumed the execution of the contract awarded in Egypt (worth some Eu17mn) due to the current geopolitical situation in the country. All in all we have cut our adjusted net profit forecast by 22.4% on 2016 and by 32.4% on 2017.
- Downgrade to NEUTRAL from Outperform: target moved to Eu1.05. We are downgrading the stock from Outperform to NEUTRAL as the ongoing restructuring, combined with changes in the consolidation scope following the most recent acquisitions and agreements, mean visibility on future earnings is very low. Awaiting the release of a new business plan, we prefer to take a cautious stance on the stock. Our new target price, set at Eu1.05 per share from Eu1.80 previously, is based on an SOP valuation where we have also applied a 30% discount to fair value to take into account the stock's low liquidity and the current lack of visibility.

Results

1H16 results were impacted by the deconsolidation of Free Energia.

1H16 turnover came to Eu50.6mn (9.7% below our estimate), representing a 67% YoY decline, mainly due to the deconsolidation of Free Energia, which negatively affected the Energy Management business line (-98.1% YoY). The Technical Services business line posted positive growth (+132.2%), mainly due to the boost to the EPC business provided by the South African "Giant" contract.

EBITDA came to Eu9.5mn, representing a decrease of 11.4% YoY, but with a significant increase in the margin (18.8% vs. 7.1%) due to the greater weight of business lines with higher added value. EBIT stood at Eu5.9mn, down 25% YoY. This figure was also impacted by a negative one-off of around Eu1.1mn due to the devaluation of the credit position held in Veneto Banca.

The bottom line was dragged down by a higher than expected tax burden, closing at Eu1.1mn (-24.7% vs. 1H15).

Net debt went down from Eu87mn at the end of 2015 to Eu79.3mn at June 2016.

Estimates

Our 2016 and 2017 new estimates now incorporate the acquisitions of Softeco Sismat and Selesoft Consulting (Technical Services) and the agreement reached with Roma Gas (Energy Savings business line).

We have also included the purchase of an Energy Management company by year end, as according to TerniEnergia's management the deal should be finalized soon.

As far as EPC revenues are concerned, we have taken into account the contracts won in Zambia for a 36MW photovoltaic plant and in South Africa for an 86MW photovoltaic plant; we have not assumed the execution of the contract awarded in Egypt (worth some Eu17mn) due to the local current geopolitical situation.

All in all we have cut our adjusted net profit forecast by 22.4% on 2016 and by 32.4% on 2017.

Valuation & Action

We are downgrading the stock from Outperform to NEUTRAL as the ongoing business restructuring, combined with changes in the consolidation scope following the most recent acquisitions and agreements, mean visibility on future earnings is very low.

Awaiting the release of a new business plan, we prefer to take a cautious stance on the stock.

Our new target price, set at Eu1.05 per share from Eu1.80 previously, is based on an SOP valuation.

For the valuation of the Technical Services, Energy Management and Energy Savings business lines we have carried out a peer comparison based on the EV/EBITDA multiples of a panel of Engineering and Energy companies.

For the valuation of the Cleantech business line, we have used book values.

Finally, we have applied a 30% discount to our fair value to take into account the stock's low liquidity and the current lack of visibility on business trends given the ongoing restructuring.

The reproduction of the information, recommendations and research produced by Intermonte SIM contained herein and of any its parts is strictly prohibited. None of the contents of this document may be shared with third parties without authorisation from Intermonte. This report is directed exclusively of market professional and other institutional investors (Institutions) and is not for distribution to person other than "Institution" ("Non-Institution"), who should not rely on this material, Moreover, any investment or service to which this report may relate will not be made available to Non-Institution.

The information and data in this report have been obtained from sources which we believe to be reliable, although the accuracy of these cannot be guaranteed by the Intermonte. In the event that there be any doubt as to their reliability, this will be clearly indicated. The main purpose of the report is to offer up-to-date and accurate information in accordance with regulations in face covering "recommendations" and is not intended nor should it be construed as a solicitation to buy or sell securities.

This disclaimer is constantly updated on Intermonte's website www.intermonte.it under DISCLOSURES. Valuations and recommendations can be found in the text of the most recent research and/or reports on the companies in question.

ANALYST CERTIFICATION

For each company mentioned in this report the respective research analyst hereby certifies that all of the views expressed in this research report accurately reflect the analyst's personal views about only or all of the subject issuer (s) or securities. The analyst (s) also certify that no part of their compensation was, is or will be directly or indirectly related to the specific recommendation or view in this report.

The analyst (s) responsible for preparing this research report receive(s) compensation that is based upon various factors, including Intermente's total profits, a portion of which is generated by Intermente's corporate finance activities, although this is minimal in comparison to that generated by brokerage activities.

Intermente's internal procedures and codes of conduct are aimed to ensure the impartiality of its financial analysts. The exchange of information between the Corporate Finance sector and the Research Department is prohibited, as is the exchange of information between the latter and the proprietary equity desk in order to prevent conflicts of interest when recommendations are made.

GUIDE TO FUNDAMENTAL RESEARCH

GUIDE TO FUNDAMENTAL RESEARCH

Trequency of research: quarterly

Reports on all companies listed on the S&PMIB40 Index, most of those on the MIDEX Index and the main small caps (regular coverage) are published at least once per quarter to comment on results and important newsflow.

A draft copy of each report may be sent to the subject company for its information (without target price and/or recommendations), but unless expressly stated in the text of the report, no changes are made before it is published.

Explanation of our ratings system:

BUY: stock expected to outperform the market by over 25% over a 12 month period;

OUTPERFORM: stock expected to outperform the market by between 10% and 25% over a 12 month period:

NEUTRAL: stock performance expected at between +10% and –10% compared to the market over a 12 month period;

UNDERPERFORM: stock expected to underperform the market by between –10% and –25% over a 12 month period;

SELL: stock expected to underperform the market by over 25% over a 12 month period.

The stock price indicated is the reference price on the day prior to the publication of the report

Prices: The prices reported in the research refer to the price at the close of the previous day of trading

CURRENT INVESTMENT RESEARCH RATING DISTRIBUTIONS

Intermonte SIM is authorised by CONSOB to provide investment services and is listed at n° 246 in the register of brokerage firms. As at 30 June 2016 Intermonte's Research Department covered 150 companies.

Intermonte's distribution of stock ratings is as follows:
