

PRESS RELEASE
Terni, January 31, 2018

**TERNIENERGIA: extended to February 28 the signing-date for the sale
of photovoltaic assets**

TerniEnergia, a company listed on the Star segment of the Italian Stock Exchange and part of the Italeaf Group, further to what was announced on December 18, 2017 - with regard to the binding offer for the purchase of certain photovoltaic plants by a leading international investment operator - announces that it has agreed with the counterparty an extension until February 28, 2018 of the deadline for signing-date of the transaction, previously scheduled for today's date.

This press release is also available on the Company's website: www.ternienergia.com.

TERNIENERGIA (TER. MI), established in September 2005 and part of the Italeaf Group, is the first Italian global technological enabler, committed to bringing energy solutions and efficient recovery of integrated and sustainable resources to the world. Organized into two strategic business lines (Assets and Smart solutions and services), with about 400 employees and a geographical presence in almost all the Continents, with operative and commercial offices, TerniEnergia develops innovative solutions, products and services based on digital and industrial technologies for the energy supply chain, networks, smart mobility, industrial automation and the recovery of marginal resources.

TerniEnergia, also through its subsidiaries (Softeco Sismat, Selesoft Consulting, Greenled Industry, GreenAsm, GreenAsm, Purify, Wisave, Ant Energy), pursues the objectives of increasing energy production from renewable sources, saving energy and reducing emissions, as established by European environmental policy, and actively participates in the energy revolution of distributed electricity generation and smart grids, with innovative digital solutions.

TerniEnergia is the ideal partner for large utilities, distribution operators and network operators, energy producers, public administrations, industrial customers and investors who intend to realize large projects for the production of renewable energy, modern systems and plants with high energy efficiency, solutions for the management and maintenance of infrastructure and electrical installations.

TerniEnergia, as a leader in the international photovoltaic market, has completed its transformation into a smart energy company and technological enabler through a complete technological and commercial offer, to the development and supply of digital technologies and the creation of "intelligent" services and solutions aimed at public and private customers in emerging sectors.

TerniEnergia is listed on the STAR segment of Borsa Italiana S. p. A..
