

TerniEnergia: the Group's digital company Softeco obtains the certification UNI CEI ISO/IEC 27001:2013

TerniEnergia, smart company listed on MTA of Borsa Italiana and part of the Italeaf Group, announces that **Softeco**, digital company of the Group, has obtained the ISO 27001:2013 Certification for the management of information security for the provision of its services. This certification represents the international standard that covers every aspect of information security and ensures that the company manages information in complete security, meeting the principles of confidentiality, integrity and availability.

Through the full implementation of this international standard, the company intends to develop the business by reducing IT risks and negative impacts in operational and industrial terms, allowing participation in international tenders and European programs of facilitated finance aimed at innovation.

The UNI CEI ISO/IEC 27001:2013 standard specifies the requirements for establishing, implementing, maintaining and continuously improving an information security management system within the organisation. It also includes requirements for the assessment and treatment of information security risks appropriate to the needs of the organisation. The requirements in the standard are generic and are intended to apply to all organisations, regardless of type, size or nature.

Softeco's ISO 27001 certified information system aims to protect data and information from any criticality, to ensure their integrity, confidentiality and availability, and to provide the requirements for adopting an adequate information security management system (ISMS) aimed at the proper management of sensitive data.

Softeco is already ISO 9001 certified and intends to expand the range of its certifications, also to generate more and more added value of distinction in its market of reference, greater confidence in the relationship with customers, public organizations and offer, finally, suitable and durable guarantee of availability, confidentiality and integrity.

This press release is also available on the Company's website: www.ternienergia.com.

TERNIENERGIA (TER. MI), established in September 2005 and part of the Italeaf Group, is the first Italian global technological enabler, committed to bringing energy solutions and efficient recovery of integrated and sustainable resources to the world. Organized into two strategic business lines (Assets and Smart solutions and services), with about 300 employees and a geographical presence worldwide, with operative and commercial offices, TerniEnergia develops innovative solutions, products and services based on digital and industrial technologies for the energy supply chain, grids, smart mobility, industrial automation and the recovery of marginal resources.

TerniEnergia, also through its subsidiaries (Softeco Sismat, Greenled Industry, GreenAsm, GreenAsm, Purify, Wisave, Ant Energy), pursues the objectives of increasing energy production from renewable sources, saving energy and reducing emissions and actively participates in the energy revolution of distributed power generation and smart grids, with innovative digital solutions.

TerniEnergia is the ideal partner for large utilities, distribution operators and network operators, energy producers, public administrations, industrial customers and investors who intend to realize large projects for the production of renewable energy, modern systems and plants with high energy efficiency, solutions for the management and maintenance of infrastructure and electrical installations.

TerniEnergia has completed its transformation from a leader in the international photovoltaic market into a smart energy company and technological enabler for the sustainable use of resources through a complete commercial offer of solutions, the development and supply of digital technologies and the creation of "intelligent" services and solutions aimed at public and private customers in emerging sectors. TerniEnergia is listed on the MTA of Borsa Italiana.

Established in 1979 **SOFTECO** Srl is a leading company in the Information and Communication Technology market. The company proposes itself as a supplier of innovative solutions that allow the exploitation of the potential offered by Information Technology for business development.

Joint Press Release

Terni - 20 February 2019

Softeco develops IT and industrial projects through the integration of systems, products, technologies and networks, completing the offer with the provision of technical and organizational consulting, specialized services and training.

The Company's distinctive element is its substantial investment in Research and Innovation. In this context, participation in EU Projects and numerous international scientific and technological collaborations are the keys to the development of High Technology Products and a prerequisite for the transformation of Innovation into business solutions.

The Company operates in the energy, transport, telecommunications and finance sectors and in the entire industrial market with its own solutions and services. Softeco has gained the trust of hundreds of customers on the market for more than 30 years and is a partner of some of the major Italian and international players.

On 31 October 2016 Softeco joined the TerniEnergia Group, a smart company listed on the MTA of the Italian Stock Exchange and part of the Italeaf Group.
