

TERNIENERGIA: the Group's digital company Softeco obtains two framework contracts with Leonardo for the design of SCADA systems and software applications for airport sorting

TerniEnergia, a smart company listed on the Italian Stock Exchange's electronic share market (MTA) and part of the **Italeaf** Group, announces that the Group's digital company, **Softeco Sismat** obtained two framework contracts for a period of 24 months, between 30/7/2019 and 29/7/2021, and which can be renewed for a further 12 months, respectively for the SCADA area and for the software applications area on behalf of Leonardo S.p.A., an Italian company leader in the defence, aerospace and security sectors.

The business is related to the design and implementation of supervision software for the simulation and emulation of sorting systems for couriers and airports.

The company of the TerniEnergia Group will provide the customer with an innovative service, thanks to the use of established market platforms and qualified technicians, with many years of experience in the application contexts covered by the supply.

The supply of services will be carried out according to a procedure regulated by the agreements, which provides for the issue of orders containing the details of the activities, the methods and times of execution and the relative amount.

This press release is also available on the Company's website: www.ternienergia.com.

TERNIENERGIA (TER. MI), established in September 2005 and part of the Italeaf Group, is the first Italian global technological enabler, committed to bringing energy solutions and efficient recovery of integrated and sustainable resources to the world. Organized into two strategic business lines (Assets and Smart solutions and services), with about 300 employees and a geographical presence worldwide, with operative and commercial offices, TerniEnergia develops innovative solutions, products and services based on digital and industrial technologies for the energy supply chain, grids, smart mobility, industrial automation and the recovery of marginal resources. TerniEnergia, also through its subsidiaries (Softeco Sismat, Greenled Industry, GreenAsm, GreenAsm, Purify, Wisave, Ant Energy), pursues the objectives of increasing energy production from renewable sources, saving energy and reducing emissions and actively participates in the energy revolution of distributed power generation and smart grids, with innovative digital solutions. TerniEnergia is the ideal partner for large utilities, distribution operators and network operators, energy producers, public administrations, industrial customers and investors who intend to realize large projects for the production of renewable energy, modern systems and plants with high energy efficiency, solutions for the management and maintenance of infrastructure and electrical installations. TerniEnergia has completed its transformation from a leader in the international photovoltaic market into a smart energy company and technological enabler for the sustainable use of resources through a complete commercial offer of solutions, the development and supply of digital technologies and the creation of "intelligent" services and solutions aimed at public and private customers in emerging sectors. TerniEnergia is listed on the MTA of Borsa Italiana.
