

Press Release

Terni – 18 December 2019

TERNIENERGIA: 20-month extension of the V.I.A. procedure for the biodigestion and composting plant under construction for the production of biomethane owns by Newcoenergy (100% TerniEnergia) at Calimera (LE)

TerniEnergia, a smart company listed on the Italian Stock Exchange's electronic share market (MTA) and part of the **Italeaf** Group, announces that - today - the Environmental Protection and Enhancement Service of the Province of Lecce has granted an extension of 20 months of the deadline for the effectiveness of the Executive Determination concerning the "Environmental Impact Assessment (VIA) Procedure" for the biodigestion and composting plant under construction for the production of biomethane owned by Newcoenergy (100% of TerniEnergia) located in Calimera (LE).

The Executive Determination of the Province of Lecce follows the ruling of the Regional Administrative Court of Lecce no. 112/2019, which had ruled in favour of the Company and its request for the extension of the V.I.A. measure as a variant of the project already authorised. As a result of this measure TerniEnergia can enhance the asset.

TerniEnergia and Newcoenergy were assisted in the proceedings and in the process of granting the extension by the lawyer Andrea Sticchi Damiani.

This press release is also available on the Company's website: www.ternienergia.com.

TERNIENERGIA (TER. MI), established in September 2005 and part of the Italeaf Group, is the first Italian global technological enabler, committed to bringing energy solutions and efficient recovery of integrated and sustainable resources to the world. Organized into two strategic business lines (Assets and Smart solutions and services), with about 200 employees and a geographical presence worldwide, with operative and commercial offices, TerniEnergia develops innovative solutions, products and services based on digital and industrial technologies for the energy supply chain, grids, smart mobility, industrial automation and the recovery of marginal resources. TerniEnergia, also through its subsidiaries (Softeco Sismat, Greenled Industry, GreenAsm, GreenAsm, Purify, Wisave, Ant Energy), pursues the objectives of increasing energy production from renewable sources, saving energy and reducing emissions and actively participates in the energy revolution of distributed power generation and smart grids, with innovative digital solutions. TerniEnergia is the ideal partner for large utilities, distribution operators and network operators, energy producers, public administrations, industrial customers and investors who intend to realize large projects for the production of renewable energy, modern systems and plants with high energy efficiency, solutions for the management and maintenance of infrastructure and electrical installations. TerniEnergia has completed its transformation from a leader in the international photovoltaic market into a smart energy company and technological enabler for the sustainable use of resources through a complete commercial offer of solutions, the development and supply of digital technologies and the creation of "intelligent" services and solutions aimed at public and private customers in emerging sectors. TerniEnergia is listed on the MTA of Borsa Italiana.
