
algoWatt: strategic partnership with Siemens in the building technologies sector launched. Authorized Technical Partner qualification obtained

algoWatt S.p.A., GreenTech Solutions Company listed on the Italian Stock Exchange (MTA), announces to have obtained the status of **Authorized Technical Partner by Siemens Building Technologies Division**, an initiative within the qualified partnership program wanted by the multinational leader in the design, production and implementation of supervision and control systems for technological systems and subsequent maintenance of these systems.

As an Authorized Technical Partner, algoWatt has demonstrated its expertise in the entire field of building automation systems, including the approvals and authorizations required by the regulations in force and so on, required by Siemens to verify technical and professional suitability, as well as the ability to provide value to customers throughout the entire life cycle of the infrastructure, through services of application development, programming, commissioning and maintenance of software packages for different processes.

Within the scope of the partnership, Siemens and algoWatt will encourage collaboration and proactivity in the relationship. In this sense, improvement proposals put forward by the Technical Partner for the improvement of plant functionality, extension or integration of services on third party plants/equipment present on the site, as well as the possibility to explore the application of algoWatt solutions aimed at the market of efficient energy use and building automation technologies, will be taken into consideration.

This new status of algoWatt strengthens the partnership with Siemens and completes the company's position as a highly qualified operator in the most technologically intensive sectors of automation systems, in terms of comfort, safety and energy efficiency of both new and existing buildings for residential, commercial and industrial use.

*"The recognition of algoWatt as an Authorized Technical Partner of Siemens testifies to the depth of our experience in Building Technologies," said **Massimo Mannori, General Manager of algoWatt**. "This new recognition allows us to be even closer to our customers and to open new markets for our solutions as well, ensuring that our skills and technical processes meet the standards set by a leading partner in the sector and of international standing such as Siemens, whose quality standards we share as a company."*
